

## Linking video to a topic

### Step 1

In the **Related items** box at the end of a topic click on **link to an existing video**.

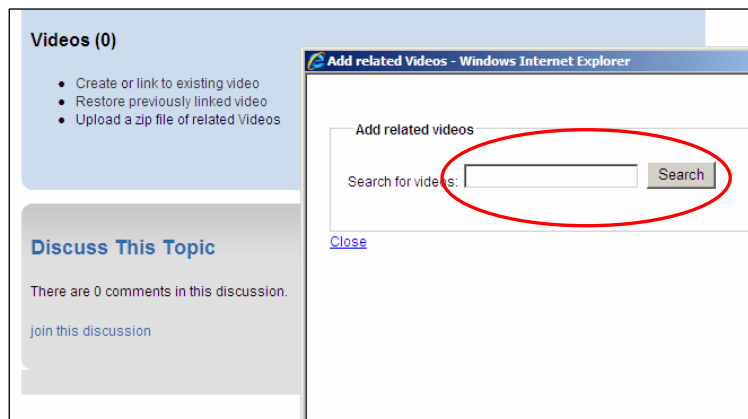

The **Add related videos** window will appear.

### Step 2

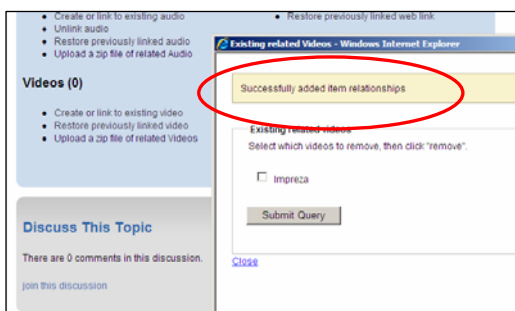

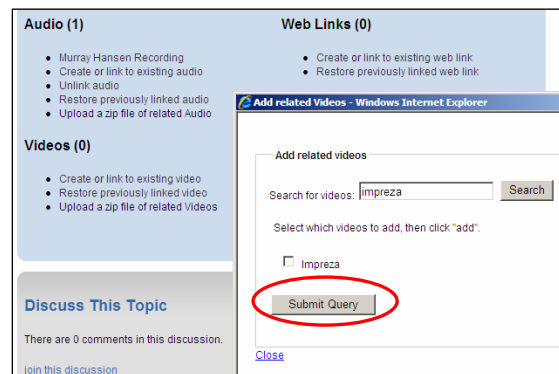

Enter your search in the search box, and click search.

If there are videos that match your search term you will get a set of search results.

### Step 3

Mark the videos you want to link to your topic and click the **Submit query** button

### Step 4

When the linking is successful you will see the confirmation screen with the message *Successfully added item relationships*. Click **Close**.

The videos you have linked will appear in the list under the heading **Videos** in the Related items box.
